

This image shows a screenshot of the Pix Resume web application interface, allowing users to customize their resumes.

The main area displays a resume for "Brandon Kenn" as an "UI/UX Designer". The resume includes sections for Experience, Skills, Specialties, and Education. The Experience section lists three roles: UI/UX Designer at Kopi Space, Dribbble Shot Team for Lalala Studio, and UI/UX Designer Internship at Skilvul. The Skills section lists Figma, Figjam, Notion, and Whimsical. The Specialties section lists UI/UX Design, Sitemap, Wireframing, Prototyping, Layout, Team Work, and Collaboration. The Education section lists Brawijaya University, Department of Information Systems, with a GPA of 3,59 from 2018-2022.

The left sidebar, titled "Customize", contains several sections:

- Pages**: Shows a preview of the resume design.
- Templates**: Shows a list of available resume templates.
- Layout**: Offers options for Top, Left, and Right layouts.
- Column**: Offers options for 1 Column and 2 column layouts.
- Column Width**: A slider for adjusting the width of columns, currently set at 80% on the left and 20% on the right.
- Rearrange Section**: Buttons for Experience, Skills, Education, and Specialties.
- Heading**: Options for different heading styles.

The top navigation bar includes links for "Home", "Akmal - UIUX Designer", and "Logout". It also features standard browser controls (Back, Forward, Refresh), a search bar, and a zoom level of 50%. On the right side, there are buttons for "Share" and "Publish".

The right sidebar contains sections for "Align", "Text", and "Color", each with various styling options like font size, weight, and color.
